CISOG TECHNOLOGY CONSULTS LLC

SMEs & GROWTH COMPANIES CAPABILITY STATEMENT

SECURE. TRANSFORM. GOVERN. GROW.

Enterprise technology expertise without enterprise overhead. CISOG provides flexible access to experienced technology and cybersecurity advisory capabilities for small, medium-sized and growing organizations.

SECURE	TRANSFORM	GOVERN	GROW
Protect what matters most	Modernize and work smarter	Manage risk and stay compliant	Build capability and scale

WHY GROWING ORGANIZATIONS CHOOSE CISOG

- Right-sized cybersecurity and governance without enterprise complexity
- Experienced vCISO and technology leadership when a full-time executive is not yet needed
- Practical roadmaps tied to business goals, risks and operating realities
- Scalable technology foundations that support expansion and innovation
- Support for cybersecurity, compliance, cloud, AI and digital transformation as the organization grows

TARGET ORGANIZATIONS

- Startups and early-stage companies
- Scaling and high-growth businesses
- Mid-market companies without in-house security leadership
- Organizations preparing for funding, audits or customer requirements
- Businesses modernizing technology or moving to the cloud

Core Capabilities for SMEs & Growth Companies

CISOG's SME proposition is built around flexible, practical access to the capabilities identified in the CISOG USA industry strategy.

vCISO

CISO-level cybersecurity leadership and strategic guidance without the cost of a full-time CISO.

Cybersecurity Assessment

Assess security posture, identify critical gaps and establish a prioritized improvement roadmap.

Cybersecurity Strategy

Develop a right-sized security program aligned to business objectives, risk and growth.

GRC

Practical governance, risk management, policies, controls, compliance and audit readiness.

IT Governance

Establish technology decision-making, accountability, risk registers, controls and reporting.

Cloud Advisory

Cloud strategy, migration planning, governance, security and scalable infrastructure.

Technology Strategy

Independent advice on IT strategy, architecture, modernization, investments and operating models.

AI Governance

Policies, risk management, responsible AI, security, privacy and third-party AI oversight.

Digital Transformation

Process transformation, automation, technology modernization, cloud, data and digital operating models.

Software & Applications

Custom applications, integration, workflow automation and modern solutions tailored to business needs.

A Practical Path to Secure Growth

CISOG works with clients from understanding the business challenge through assessment, strategy, transformation and sustainable improvement.

01	02	03	04	05
UNDERSTAND	ASSESS	STRATEGIZE	TRANSFORM	SUSTAIN & IMPROVE
Learn your business, goals, risks and priorities.	Evaluate current state, risks, gaps and opportunities.	Define practical priorities and a roadmap.	Help execute solutions that deliver measurable value.	Monitor, measure and continuously improve outcomes.

BUSINESS OUTCOMES

Stronger Cybersecurity & Reduced Risk

Build practical security capabilities appropriate to the organization's size, risk and growth stage.

Better Governance & Confidence

Improve accountability, controls, policies and readiness for customer or regulatory expectations.

Improved Efficiency & Productivity

Use technology, automation and process improvement to reduce friction and improve operations.

Faster Technology Decisions

Give leadership clear options, priorities and roadmaps rather than isolated technology recommendations.

Scalable Technology Foundations

Modernize cloud, infrastructure, applications and governance to support sustainable expansion.

Greater Customer Trust

Strengthen security, resilience and responsible technology practices that support market confidence.

Flexible Solutions That Scale With You

The CISOG USA product architecture supports an assessment-to-advisory model that can grow with the client's needs.

CyberSecure 360™

A structured cybersecurity improvement program covering assessment, risk, governance, controls, awareness and resilience.

vCISO 360™

Flexible cybersecurity leadership for organizations that need experienced security direction without building a full-time executive structure.

GRC 360™

Integrated governance, risk and compliance improvement:
Assess → Design → Implement → Monitor → Improve.

AI Governance 360™

A structured approach to governing AI adoption, risk and responsible use.

Digital Transformation 360™

Connect strategy, architecture, technology, people, process, data and governance to measurable transformation outcomes.

Executive Technology Advisory

Independent technology counsel for high-impact decisions, including IT strategy, architecture, modernization and investment priorities.

WHO WE CAN SUPPORT

- CEO / Founder — strategic technology and risk decisions
- COO — process, operational efficiency and transformation
- CIO / CTO — modernization, architecture and technology roadmaps
- CISO / Security Lead — cybersecurity program, governance and risk
- Board / Investors — technology risk, resilience and responsible growth
- Business Leaders — digital capabilities, automation and customer experience

COMMERCIAL MODEL

CISOG can structure engagements as assessments, advisory programs, transformation projects, executive briefings, fractional leadership or ongoing advisory services, depending on scope and client needs.

Why CISOG for Growing Organizations

Business-First Advisory

Recommendations start with business objectives, operating realities, risk and measurable outcomes.

Right-Sized Expertise

Access experienced cybersecurity, governance and technology expertise without building a large internal function.

Strategy to Execution

Support can span assessment, strategy, implementation, capability development and continuous improvement.

Integrated Technology Ecosystem

Cybersecurity, GRC, AI governance, digital transformation and technology advisory work together rather than in isolation.

Global Perspective. U.S.-Focused Delivery.

CISOG Technology Consults is the U.S. operation within the wider CISOG Group ecosystem, with capabilities spanning the United States, Nigeria and UAE.

LET'S SECURE, TRANSFORM AND GROW YOUR BUSINESS.

Talk with CISOG about your cybersecurity, vCISO, GRC, cloud, AI governance or technology priorities.
